DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 26 July 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,698,438 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. The following is a statement of reasons for the indication of allowable subject matter:
3. The closest prior art of record, US 6,418,943 to Miller, fails to teach each and every limitation of the instant invention. Specifically, Miller fails to teach the claimed fine filter assembly having a fluid inlet and fluid outlet adjacent one another and proximate an outer perimeter of the fine filter assembly body, in combination with pressure regulating means such as a fluid column (claim 1), a check valve and drain tube (claim 9), and a pressure relief tube (claim 17), which is disclosed as essential elements of claimed invention, as described in independent claims 1, 9 & 17.
4. For at least the foregoing reasons, claims 1-20 are believed to recite patentable subject matter.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
